SLOT-LOCK BATHWASTE

"IT'S A SNAP TO INSTALL"

- Patent-pending lock-in-place faceplate prevents loosening of overflow and retainer nut which could lead to serious overflow problems
- Unique overflow test cap prevents installation of faceplate without removal of testing device which could cause water damage
- Slot-Lock trim kits may be compatible with other brand rough-in kits in the marketplace
- Slot-Lock re-fit kits available for quick and easy trimouts in special finish
- Assembled in the USA with domestic and foreign components

SLOT-LOCK BATHWASTE INSTALLATION

Follow the installation instructions outlined below to install JB Products Slot-Lock bathwaste. For questions regarding installation, contact your local representative, or call JB Products 800-527-8727 for more information.

To learn more about JB Products visit www.jb-products.com.

STEP 1

Install the thick washer over the threads of the Slot-Lock overflow head.

STEP 2

Screw the lock nut on the threads of the Slot-Lock overflow head to secure to the tub face.

STEP 3

When pressure testing the system, screw on the red test cap to seal the Slot-Lock overflow head.

STEP 4

Remove the red test cap and insert the Slot-Lock faceplate into the overflow head with the slots and turn until it locks into position.

STEP 5

Once Slot-Lock faceplate is in position, push forward until the faceplate is touching the tub face.

Strainer

Disposal Flange

LOOKING FOR A MATCH?

JB Signature sink strainers and disposal flanges are available in matching sets to enhance your kitchen sinks. Engineered to last and available in colors that compliment or match most cast iron, stainless steel, fireclay or composite sinks. Please see your showroom consultant for color availability and installation instructions.
